On July 4th we had a cook out followed by our 2nd annual water balloon fight. Maurice Rimmer cooked hamburgers on his grill. The residents and staff took aim and fired their water guns at the employees. How rare is it to have so much fun, while making money? Theresa Mimnaugh called bingo and awarded the winners with envelopes, containing surprising amounts of money! Thank you to all the people that made this day special.

Italy's Flawed Tower

Construction of Italy's famous Leaning Tower of Pisa began on August 9, 1173. It is the freestanding bell tower to the neighboring cathedral, and, of course, was never meant to lean. The tower first began to tilt in 1178. Its design was flawed from the beginning due to a shallow foundation set in weak and uneven soil. In 1272, engineers tried to compensate for the lean by building upper floors with one side taller than the other, but this caused the tower to lean in the other direction.

Multiple methods have been employed to fix the tower's lean, including the addition of lead counterweights and anchor cables. Finally, in 2008, soil was removed from its base and the tower stopped moving for the first time in its history, preserving its famous angle of 3.97 degrees.

Excluding Larry Fine, Mo, Shemp, and Curly of *The Three Stooges* all shared what last name?

Howard. The film trio was originally composed of Larry Fine and brothers Moe and Shemp Howard. Curly Howard, the youngest of the three Howard brothers, then replaced his brother Shemp. Although the line-up changed several times throughout their career, most people think of the Stooges as Moe, Larry, and Curly during their prime years at Columbia Pictures in the 1930s and early 1940s.

Bethel Hill Baptist Church Mission Minded Kids put on a Hee-Haw skit for Father's Day. Everybody enjoyed hot fudge Sundays.
