

We have several former families and residents that would like to share their experiences:

- “I credit the staff with finding that I was developing what could have been a very serious heart problem. Prompt attention and a pacemaker have made me my old self again.” – Edgar Harvey
- “I had worked on the staff and was a volunteer at a retirement center for 10 years, so I had a number of expectations for a home for her: a qualified staff and appropriate ratio of staff to residents; active happy residents; pleasant surroundings; comfortable and clean accommodations; friendly interaction between staff and residents plus small size of facility were very important.” - Judy Weber
- “The facility provides the beauty and the staff provides the hospitality that makes Cambridge Hills a “home away from home” for our Mom.” – Butch and Millard Thacker
- “Cambridge Hills is a first quality assisted living center. Problems are handled quickly and efficiently. Our mother called it home.” – Coleman family
